DETAILED ACTION

Election/Restrictions

Claims 1, 2 and 9 are allowable. The restriction requirement between combination and subcombination, as set forth in the Office action mailed on 9/10/06, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 3-8, ~~directed to the subcombination are no longer withdrawn from consideration because the~~ claim(s) requires all the limitations of an allowable claim. However, claims 10-12, directed to the process of making are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Reasons For Allowance

Claims 1-9 have been allowed.

The following is an examiner's statement of reasons for allowance: prior art could not be located that taught a semiconductor device comprising metal-metal bonding a coupling member to a chip and a heat dissipation member attached to the coupling member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
